Rotarian Action Group Against Slavery

Together we could
Bring An End To Slavery

Our Guest speaker today was **Malcolm Baird** from **Brighton North Rotary Club**.

He spoke to us about the world wide problem of Slavery, initially the Rotary Action Group Against Children Slavery now it incorporates all forms of slavery. It is now more vast than ever, just as brutal and is more stoppable than ever before.

There are an estimated 46 million, according to **Walk Free's Global Slavery Index**. That's four times more than those taken out of Africa during the 400 years of the Atlantic Slave Trade. Modern slaves, however, are disposable, cheap, and being hidden from plain sight have no human rights. Very young children are now in greater danger than ever before as sex traffickers exploit opportunities arising from natural disasters, deprivation, civil conflict, and mass migration.

RAGAS, formerly RACSRAG, working with others globally will change that by

- **Creating awareness:** Telling Rotarians and the wider public that millions are held captive for illegal gain – MANY NEAR WHERE YOU LIVE!
- **Taking action:** Supporting, working with and promoting global anti-slavery bodies and activities through Rotary Clubs, campaigns and projects that help protect children and adults from slavery and its consequences.

Our Aims

RAGAS looks to provide information about, and promote ways for you to engage and support anti-slavery and human trafficking projects, programmes and campaigns. It does this by ...

- Publicising the work of, and work with other anti-slavery organisations
- Reminding Rotarians of their ethical responsibilities with regard to the rights of children – **see current guidance**
- Encouraging Rotarians and Clubs to take action by:
 - a) actively supporting the work of anti-slavery organisations in their work combating slavery and human trafficking
 - b) directly supporting various projects e.g. Slavery Rehabilitation Centres through personal visits, participation in grant projects
 - c) identifying and boycotting offending products
 - d) supporting campaigns that highlight illegal activity and seek to bring justice for those offended
- Influencing policy makers when considering the rights of children and adults held against their will.
- Engaging Rotarians world-wide through Rotary's social and other networks.

Malcolm was very passionate about spreading the word about slavery, and what can be done to abolish slavery in the world.

FOUNDATION FACTS

WHAT IS A PAUL HARRIS FELLOW?

A Paul Harris Fellow Recognition is given in appreciation to anyone who makes a gift of US\$1,000 or more cumulatively to the Annual Fund, PolioPlus Fund, or an approved global grant.

Rotary Clubs and Rotarians can also use a US\$1000 donation to recognize any worthy individual, either a Rotarian or a non-Rotarian, as a Paul Harris Fellow.

It is preferable to refer to Paul Harris Fellows as being "recognized" by the Rotary Foundation rather than being recipients of an "award".

The recognition consists of a certificate and pin. A medallion for \$15 is an optional item

Since the creation of Paul Harris Fellow Recognitions in 1957 over 1.4 million people have become Paul Harris Fellows. At the end of the 2015-2016 Rotary year (30 June) there were 298 Paul Harris fellows in District 9800.

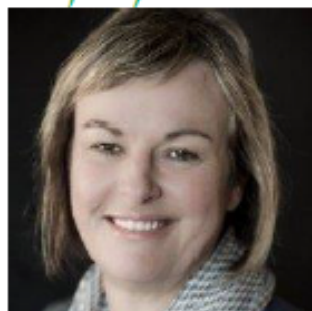

We have 14 Paul Harris Fellows in our Club currently. Are you one or are you ready to become one?

**THANK YOU FOR SUPPORTING
THE ROTARY FOUNDATION AND ITS WORK.**

EAT TO CHEAT DEMENTIA - What you eat helps you avoid it or live well with it!

Ngaire Hobbins

Special Public Lecture - Monday October 3 at 11am.

Ngaire Hobbins is a dietitian driven by a passion to promote independence and health in older people by averting physical and mental decline that is all too common because of inappropriate food choices. She is an advocate for promoting the joy of eating and the essential place food plays in the health of all older people, whether living independently, being assisted in the community or residing in the residential care. She lives in Australia and is a clinical practitioner, ageing wellness consultant, author and lecturer in dementia studies, University of Tasmania, an aged care consultant and seniors' advocate.

Ngaire's common sense approach to food is built on years in practice combined with a thorough review of the nutritional science in ageing years. You will be entertained and you will go home with a new understanding of food and the role it plays as we age.

Eat to Cheat Dementia expands on the healthy brain chapter in Ngaire's first book, summarising the latest research on what we can do to reduce our chance of cognitive decline and dementia, but also provides an invaluable resource for those living with a dementia diagnosis and the people who care about them. It provides practical strategies and advice to keep people enjoying independent lives as long as possible.

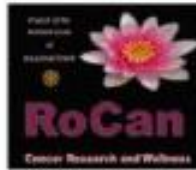

Ngaire's talk will include a question and answer session. Her book will be available for purchase on the day.
